SCHEDULE 3

APPLICATIONS FOR DEVELOPMENT VARIANCE PERMIT

All applications for Development Variance Permits submitted in accordance with this Bylaw will be substantially processed as outlined below. The information is meant as a general guide to the processing procedure and is not regarded as the right to development approval if the steps indicated are followed.

Development Variance requests are typically considered where specific site characteristics or other unique circumstances do not permit strict compliance with an existing regulation. A requested variance must be reasonable, must maintain the intent of the regulation and should minimize any potential negative impacts on neighbours or the streetscape. For the purpose of this Bylaw, Development Variance Permits may be authorized for the Zoning Bylaw, the Subdivision and Development Control Servicing Standards Bylaw, and the Sign Bylaw.

Application Requirements

1. A complete application and applicable fee submitted by the owner/Applicant. The requirements for the Application are contained in the application form and the Complete Application Checklist.

Consultation

2. Development Variance Permits are subject to statutory notification requirements as outlined in the *Local Government Act* and section 8.7 to 8.9 of this Bylaw. Members of the public, and the applicants, are encouraged to attend any open meeting of Council, Council Committees and the Advisory Planning Commission meetings. Delegation requests may be considered by Council in accordance with the Council Procedure Bylaw.

Processing Procedures

3. Applicants will have a pre-application meeting to discuss the proposal and application requirements with District Staff prior to submitting a formal application to the District.
4. Upon receipt of a complete application, staff will open a file and issue a receipt to the Applicant. An application is not considered received and active until all required submission information is received and fees paid.
5. Staff will review the proposal for compliance with relevant District bylaws and policies and the following criteria for consideration of variances:
 - a) Is there a community or environmental benefit to granting the variance beyond that received by the owner of the property?
 - b) Is there a hardship involved in adhering to a pertinent bylaw? A hardship must relate to the location, size, site configuration or topography or other natural attribute of the site (e.g. rock outcrop, floodplain, natural vegetation), not the business aspects of the development.
6. Staff will prepare an information and referral sheet and circulates for comment to all applicable District departments, government ministries, agencies and organizations.
7. Staff will prepare a preliminary review report for consideration and review by the Advisory Planning Commission (APC). The report will consider the impact of the proposed variance on adjacent properties or the surrounding neighbourhood and how those impacts may be mitigated.

8. The District will mail or otherwise deliver notice of an application for a Development Variance Permit not less than ten (10) days prior to the date of the Council meeting when variance request is to be considered. Recipients will be given an opportunity to submit to Council, in writing, their comments on the proposed resolution.
9. The Application proceeds to Council. Council may:
 - a) Authorize the issuance of the Development Variance Permit
 - b) Decline the Development Variance Permit
 - c) Defer or postpone the Development Variance Permit
 - d) Refer, with direction, the Development Variance Permit application back to staff
10. Once the minutes of the Council resolution have been prepared, the Applicant will be notified of the outcome.
11. If a Development Variance Permit is granted, a Notice of Permit may be registered against the title of the property at the Land Title Office by Staff.
